

Blended Learning

Program Information for Fall, 2017

Blended learning is a voluntary option for students within Irvine Unified School District. Students in the blended learning program take courses online and attend weekly in-person meetings. Please attend an informational session regarding blended learning to learn more about the program and answer questions related to course offerings, program format, content, A-G approval for the University of California, and NCAA approval for online courses.

What is blended learning?

Is blended learning right for me?

Are blended learning courses equivalent to in-person courses?

What courses are offered in Irvine Unified through blended learning?

How can I enroll in blended learning?
